

From the factory to your location

From the factory to your location, Container Houses Canada's sea transportation typically takes between 30 to 45 days. This timeframe allows for the safe and efficient delivery of your container home, ensuring a smooth transition from production to your chosen site. The duration accommodates the necessary procedures, including loading, customs clearance, and the voyage itself. This ensures your container home arrives in excellent condition, ready for installation.

Our factory location is very close to our local port

Our factory's proximity to the [local port](#) streamlines the shipping process, reducing transit times and potential logistical complications. This strategic location ensures efficient loading and a smoother journey for your container home, minimizing delays and maximizing the overall delivery experience. The proximity to the port allows for faster loading, quicker turnaround times, and a more dependable supply chain, ultimately leading to a superior customer experience.

From the factory to your location

The streamlined shipping process of Container Houses Canada ensures a direct route from our factory to your doorstep. We prioritize efficiency and minimize transit times, offering a seamless delivery experience. This direct approach reduces potential complications and ensures your container home arrives promptly and in excellent condition.

Our factory is 2 minutes from our local port

Our factory's proximity to the local port significantly enhances our ability to provide efficient and reliable shipping services. This strategic location allows for quick loading, reduced transit times, and minimizes potential logistical challenges, ensuring a smooth and swift delivery of your container home. The advantages of this location include:
